Gl No. 175

The Chief Commissioner's
Proceedings No. 2219 of the
7th Feb.

Has the honor to state
that the sum of Rs. 1681-11-4
granted in the above has
been appropriated by the
Deputy Commissioner of
Kolar as grant in aid
towards the marginally
noted works which have
been sanctioned by the
Chief Commissioner in his
Proceedings No. 3570 of the
28th July 1875 and No. 9179-
of the 20th February 1876,
respectively. It would

40-7/10

1. Opening and new roads in the
District of Chitalchallapur
1. Repairing the Helate Sanku in
the Kolar Town

therefore seem that no new estimates
for the works in question.

No. 184

1st Dy. Commr. Office
Lagar Sub Division
Lagar 25th March 1877.

To

The Deputy Commissioner
Shimoga District.

Sir,

I have the honor, in reply to your
Docket No. 1953 dated 21st March 1877, forwarding
Nagar Division Commissioner's docket No. 1198
dated 14th Idem, and calling for an expression of
opinion regarding the advisability of spending
1200—0—0 Rupees from Municipal Funds on the
constructing of steps to the Warda river, to state
that the people of the town have long been anxious
to have the work done. The expenditure is asked
for the steps though large is to be met entirely from
balances that have year by year been allowed
to accumulate and will not interfere with the
current expenditure for conservancy, &c. The re-
construction of the steps to the river is greatly desired
by the people and even my opinion are advisable
work to us verities, the present state of the banks

inconvenient at all times, but when the river is full, it is even dangerous! ~~It is to be~~ also give a clearer course for the river ~~in the~~ by so and preventing dirt and silt from lodging about the bank where people draw their drinking water, will be advantageous in a sanitary point of view.

2. The only other way of utilizing the savings advantageously that I can think of is to improve some of the back streets by raising the surface and clearing drains and bringing them to a uniform gradient; this however in a muled town is not so urgent as it would be in the plains and as far as the Municipal Board and the people generally are concerned, the river bank scheme has a decided preference. Some years ago a subscription was raised to carry out the work and some work was done towards it, stones were collected which can now be utilized but the money subscribed proved insufficient to complete the improvement.

3. It will be very advisable I think to sanction and carry out the bank improvement at the Dharmasalla at least and then consider further whether the other part at the temple should be done or the rest of the money spent in other improvements.

4. The Banarase enclosures are returned
I have the honor to

Bangalore, 22nd May 1877.

From

The President,

Cantonment Municipal Commission

Bangalore.

To

The Secretary to the

Chief Commissioner of Mysore.

Sir

In acknowledging the receipt of your Docket No. $\frac{321}{28}$ of 9th May 1877 enquiring whether the bridge on the road from Hetta to Suba dars' Chatternum is within or without Municipal limits, and in the former case why the charge should be borne by the Public Works Department. I have the honor in reply to inform you that the bridge referred to is situated on one of the 'Through' roads under the supervision of the Public Works Department the up-keep of which however is now carried out by the Municipality. The condition of their receiving an annual grant-in-aid for this purpose this particular bridge is not one of the Ordinary Public Works by which the charges of the Roads can be

1877.

and is a large building
 built over the prison.
 It is due to the Government
 -hooly Bank, and under
 the circumstances should
 -not the charge for its
 repair should be met
 by the Public Works De-
 partment and not be
 debited to Municipal
 funds, or from the funds allocated
 for the maintenance

Offg Secretary

No. 108

Office of the Cantt. Municipal Commission

Bangalore, 31st May 1877.

From

The President,

~~Cantonment Municipal Commission~~

Bangalore.

To

The Secretary to the

Chief Commissioner of Mysore.

Sir,

With reference to the Proceedings of the Chief Commissioner of Mysore and over therein No. 466 dated Bangalore 23rd May 1877, and averting more particularly, to para 2 of the above quoted order wherein the rate for 1 Section 2 drums entered in the Budget Estimates at 5 Annas per 2 ft. has been reduced to 4 Annas I have the honor to state that the former rate is that which has always been entered in the Estimates of this Department and he thereto sanctioned, and farther that these rates have even been sanctioned for the Estimates for the current year submitted by the Cantonment Municipality. I have little doubt that Contractors would come forward to undertake the work at the reduced rate of 4 Annas but I am quite satisfied that the work so executed by them would not be of a neat substantial or satisfactory

character

experience of works of this nature and I have no hesitation in saying that the rate of 15 or 14 1/2 Annas at the lowest is the very lowest rate at which these drains can be satisfactorily constructed and that these rates leave a very narrow margin indeed of profit to the contractor I trust therefore that the proposed reduction of rate may be reconsidered and that under the explanation now offered the original rate of 5 Annas may be permitted to be retained.

I have the honor to be
Sir,

Your most Obedt Servt

No 1597

Mysore Public Works Department
Central Office
Bangalore 6th June 1877.

From

Sir: Colonel W. R. Johnson
Temporary Chief Engineer
of Mysore

To

The Secretary to the Chief Commr.
Public Works Department

Sir,

In returning letter No 1026
dated 31st May from the President Mu-
nicipal Commission, requesting, that
the Public Works Department might
be called upon to execute minor repairs to
a drain on one of the roads. I have the honor
to inform you that all such minor repairs
should be carried out by the Municipality,
and met from the Maintenance allowance,
which is intended to cover all such repairs,
and is ample for the purpose.

2. Added to this, it is undesirable, that
there should be any divided authority in
charge of these roads, the road-way being
under

under one, and the culverts and masonry
works under another Department. Such a
course would not only entail unnecessary
extra supervision but be likely to lead
to disputes.

3 Road-repairs are not given on
contract by this Department, but should
such an objectionable course be followed,
contractors would of course have to do
such work as might be provided for in their
contracts, and specifications.

W. Johnson Lieut. Colonel
Temporary Chief Engineer
of Mysore.
